From the Layers Panel drop-down menu, click Simplify Layers. If you accidentally collapse the layers, or you would like to open the layers back up, click the Layers Panel icon in the upper-right corner and select Opacity from the drop-down menu. The layer set is now expanded again.

We don't need to be set on the foolish notion of staying away from celebrities, movie stars, pop music stars or political figures as our biggest targets and fraudsters in the world. They are there at the top because they want to be in the public eye where they're able to make a profit off their celebrity status and the success they have as a result of the public's focus on them.
