Jul 10, 2018 This app is fantastic. I have used it a ton. It's super easy to use, and I use it to record from my USB headset. The good thing about it is that it has a built-in equalizer so if you want to learn how to use it, this is the app for you. TINY LINUX Awesome Jun 22, 2018 It is an awesome app, based on Linux technology. You can record and play audio, take pictures and video. You can also save audio files for further use. Using this tool, you can record from your microphone, speaker, and any other audio input device. You can play audio files using any device which is connected to your system. GOD'S DESIGN Great Service Jun 9, 2018 I tried this and was really pleased. If you're going to stick with this, I'd recommend sending it to me for a refund. I was ripped 09e8f5149f
