The U.S. and Canada's allies are reportedly preparing to bomb chemical weapons sites if President Donald Trump follows through with his threat to strike Syria. The Washington Post reported that the intelligence community "is consulting allies over the most effective response" if Trump attacks Syria. Such a strike would be the first time the U.S. has responded to a chemical weapons attack in the war-ravaged country. Administration officials are reportedly resisting the idea of an attack, but some of the president's key advisers are warming to the idea. Visit Business Insider's homepage for more stories. President Donald Trump's advisers are reportedly strongly resisting the idea of launching another missile strike on a Syrian airfield in response to a chemical attack by

Syrian President Bashar al-Assad's regime on a rebel-held town, but many of Trump's top advisers are warming to the idea, according to the Washington Post. The report cited administration officials saying that a US military strike on Syrian President Bashar al-Assad's regime would be a mistake and could embolden Russia and Iran. Vice President Mike Pence, Secretary of Defense Jim Mattis, Secretary of State Rex Tillerson, National Security Adviser John Bolton, and Trump's chief strategist, Stephen Bannon, d0c515b9f4
